

Potential Market

Label Craft

01. EXPORT POTENTIAL

Pakistan's textile exports were around \$13billion in 2021, but the country has the potential to increase this figure significantly. Reports suggest that with better value addition and branding, exports could potentially reach \$25billion by 2025.

02. MARKET SHARE

Pakistan holds approximately 2% of the global textile market, while countries like China and India dominate with around 35% and 10%, respectively.
